Supplementary notes and statistics to

VOLUME XXXVIII

OF THE

District Gazetteers of the United Provinces of Agra and Oudh.

ALLAHABAD :

Printed by W. C. Abel, Offg. Supdt., Government Press, United Provinces.

1915.

Notes on Gazetteer of Unao bringing the information up to date (1911-12).

CHAPTER I.

BOUNDARIES AND AREA.

The area of the district is approximately 1,787 square miles. The district is by no means a small one and though it is chiefly an agricultural district it is not correctly described as being of little interest or importance.

TOWNS AND VILLAGES.

The population of Unao by the last census is 11,809 and of Purwa 7,876. The other towns containing a population of over 5,000 inhabitants are Safipur, Bangermau.

Safipur 7,365, Bangermau 5,783. The towns administered under Act XX are Purwa, Safipur, Bangermau, Mohan, Moradabad, Bhagwantnagar and Nawalganj *cum* Maharajganj. Of the remaining 1,655 villages 1,110 have a population of less than 500, 351 between 500 and 1,000, 142 between 1,000 and 2,000, 52 a population between 2,000 and 5,000.

WASTE LANDS.

The barren waste according to the returns of 1319 Fasli is now 234,602 acres.

GROVES.

The area under groves according to the returns of 1319 Fasli is now 64,976 acres.

MINERALS.

The cost of quarrying kankar is now Re. 1-4-0 per 100 c. ft. and Re. 0-8-0 for cleaning and Re. 0-8-0 for stocking on road-side. The cost of carriage is now Re. 1 per 100 c. ft. on the first mile and Re. 0-12-0 for every additional mile.

BUILDING MATERIALS.

All the stone used for building has to be imported from Chunar or Mirzapur and costs Rs. 2-8-0 per c. ft. Bricks are chiefly manufactured at Unao and also at Safipur and Purwa. They are made in two sizes, 12″ × 12″ × 2″ used for flooring and roofing and sold at Rs. 4-0-0 per cent. the other 9″ × 4½″ × 3″. The latter size is

commonly used for building purposes. They are of three classes: First class bricks are sold at Rs. 8-8-0 per thousand, second class at Rs. 6-8-0 per thousand and third class at Rs. 4-8-0 per thousand. Third class bricks are used for rebuilding old houses. The best timbers for building are Sal-wood and Asna. The former comes from Bahram Ghat at Rs. 3-8-0 per c. ft. etc. the latter from Cawnpore at Rs. 2-8-0 per c. ft. They are, however, too expensive for ordinary use and recourse is generally had to local timber: Mahua, Jamun and Nim which cost Rs. 2 per c. ft. Shisham is used for furniture and its value has gone up to Rs. 3-0-0 per c. ft. Mango and other inferior country wood is also used for making cheap doors and windows and costs Rs. 1-5 per c. ft.

Formerly kankar lime used to be procured from Cawnpore, but now it is prepared in Unao, Safipnr and Purwa and sold at Rs. 20 per 100 c. ft.

FAUNA.

The average mortality from wild animals for the five years ending 1911 was one person and the average number of deaths from snake bite 54 annually.

FISHERIES.

At the 1911 census there were 346 fishermen and dealers with their dependents.

CATTLE.

Considerable sales of cattle take place at the Takia, Kusumbhi, and Gauria Kalan fairs. There are now two Kheri bulls in the district for breeding purposes—one at Gauria Kalan with Thakur Gaya Baksh Singh and one at Asiwan with Khan Bahadur Wasi-uz-Zaman.

Bi-weekly bazars are held at Unao thana (Unao tahsil), Garhee (Hassanganj tahsil) and Kaloo Khera (tahsil Purwa), in these bazars cattle are sold in large numbers.

STOCK CENSUS.

A stock census was taken in 1908-9. It was then ascertained that there were in the district 2,12,219 bulls and bullocks and 17,962 male buffalœs giving a total of 2,30,181 working animals. The number of ploughs was 1,06,408. The plough duty per cultivated acre is 5·9. There were 1,01,359 cows and 75,062 cow buffalœs.

OTHER ANIMALS.

In 1908-9 stock census horses and ponies numbered 11,219. The number of sheep was 55,943 and of goats 1,85,458.

CATTLE DISEASE.

The following cattle diseases prevail in this district in different seasons of the year: (I) Rinderpest, (II) Hoemorrhagic septicoemia, (III) Foot and mouth disease, (IV) Black quarter, (V) Anthrax and other contagious diseases.

(I) Rinderpest is common in this district whenever it does break out, it spreads violently, is very dangerous, and nearly all attacked cattle die.

(II) Hoemorrhagic septicoemia appears after the rainy season in all the portions of this district and a great number of cattle die of the disease.

(III) Foot and mouth disease is common. It prevails in every season but especially in the hot season and is a great hinderance to cultivation. It is however rarely fatal. The average number of deaths from cattle disease reported from 1904 to 1912 numbered 164 annually. The highest figure was in 1904 (417), anthrax alone accounting for 200 deaths; 1908 and 1910 were also bad. The lowest mortality was in 1906 (15), and in 1909 there were only 36 deaths.

RAINFALL.

The average annual rainfall for the whole district from 1902 to 1912 was 29·65. In the first five years the average was 32·72, and in the second it was 26·57. In 1907-8 only 16·57 inches was received and distress in that year was widespread.

HEALTH.

The annual birth rate for the decade 1902 to 1911 was 31·96 per mille; the death rate for the corresponding period was 4,572 per mille. The birth rate during this period was less than during the previous decade and death rate considerably more, mainly due to the ravages of plague.

FEVERS.

Fevers as usual are the main cause of mortality during the period under reference 1902 to 1911 (inclusive) the annual average death rate under this head was 27,429 or 65·86 per cent. of the total registered mortality. The worst year for fevers was

1908, the year after the famine of 1907-8. Malaria of a virulent type was prevalent throughout the Province and the highest number of deaths ever recorded under this head 44,882 occurred in this year. A great many deaths which are entered as due to "Fever" by the village chowkidar are really due to pneumonia and influenza.

CHOLERA.

Cholera has not been very bad during the decade under reference, the average annual mortality from 1902 to 1911 amounting to 774 against 1,328 in the previous decade. The worst epidemic during this period was in 1911 when 2,672 deaths were registered under this disease. The rural circles of Maurawan, Auras, Ajgain had the largest numbers of deaths.

SMALL-POX.

This disease has not been entirely absent from the district, but there has been a decided improvement during the last three years of the decade. In 1909, there was not a single death, in 1910 there was one and in 1911 there were 15. The worst epidemic during this decade was in 1903 when there were 1,029 deaths.

VACCINATION.

Vaccination has not made very great progress during the decade under reference, the average number of successful primary vaccinations for the period has been 23,564 and for the previous decade 22,467 so the increase is only about 1,000. The vaccination staff remains the same.

PLAGUE.

Plague which first appeared in 1897 has taken a very firm hold of the district, and for some years past the death rate from this scourge has been very high, one of the highest in the Province. The total mortality under this head for the period amounts to 55,646 giving an average annual death rate of 5,564. The district is never really free from the disease throughout the year, for even in the hot weather months when plague has disappeared from most other districts Unao as a rule continues to shew deaths. Inoculation is unpopular but evacuation has become popular.

INFIRMITIES.

In the census of 1911 there were altogether 3,263 persons afflicted; of these 2,566 were blind, 374 deaf mutes, 213 lepers and 110 insane.

CHAPTER II.

CULTIVATED AREA.

The cultivated area of the district has not appreciably altered; it varies every year with the circumstances of the year.

CULTURABLE WASTE.

The culturable waste area is 138,790 or 12·14 per cent. of the whole district, of this no less than 64,976 acres consist of grove lands and 45,527 acres of new fallow so that the actual area classed as capable of cultivation but not cultivated is 164,492 acres.

DOUBLE CROPPING.

In 1912, the area was 131,634 or 20·7 per cent. of the cultivation. This area has gradually decreased during the last ten years from 137,567 acres to 131,634. The decrease is due to the subsidence of the water level.

CULTIVATION.

The zaid or intermediate crops are of not much importance, the area cultivated in 1912 was 6,648 acres.

KHARIF CROPS.

During the last five years the tendency has been for the area under kharif crops to increase at the expense of the rabi harvest. This is probably due to the subsidence of the water level. This feature is seen in all the tahsils but is chiefly noticeable in Purwa and Mohan. The average kharif area for the last five years was 412,595 acres while that of the rabi is 333,090 acres. This is again connected with the fall of the water level.

RICE.

Rice in 1912 covered an area of 28,460 acres or 8·06 per cent. of the kharif area. The largest areas under rice are in the Purwa and Mohan tahsils. The average for the five preceding years was 66,486 or 11·6 per cent. The fall since 1907-8 when it was 87,386 is due to dry seasons.

MILLETS.

The area under Juar in 1912 was 75,035 acres which is 20 per cent. of the kharif for the whole district. The area under Bajra was 145,081 acres or 41·2 per cent. of the whole kharif area. Juar is mainly sown in Unao and Purwa, Bajra in Mohan and Safipur.

MAIZE.

Maize covers an area of 31,478 acres of which Safipur accounts for 12,774. The area in Purwa is 140 acres only. The fall in the area under maize which was 45,300 in 1902 is as remarkable as in the case of rice and is ofcourse attributable to the same cause.

OTHER CROPS.

The area under cotton is 28,798 acres or 8·1 per cent. of the kharif, it is grown mostly in Mohan and Safipur. Cotton seed from the Aligarh experimental farm was tried in 1912 with unsatisfactory results. The area under sugar-cane is 11,262. It is chiefly grown in Purwa tahsil, Safipur tahsil coming next. Indigo occupies 527 acres, Safipur alone accounting for 521 acres.

Miscellaneous crops occupy an area of 2,799 acres.

RABI CROPS.

In 1912, the area under wheat alone was 92,144, and that under wheat mixed with barley was 41,236, the percentage being 32·8 to the total rabi harvest. The area under pure wheat is largest in Mohan tahsil and of wheat in combination in Purwa. Barley sown alone covered 60,650 acres or 14·9 per cent. of the rabi area, while in combination with gram it amounted to 128,491 acres or 31·6 per cent. Gram sown alone occupied an area of 41,564 acres or 10·2 per cent. Poppy shews an average of 4,494 acres annually. Cultivation of poppy is prohibited in parganas Bhagwantnagar, Daundiya Khera, Panhan, Patan, Magrayar and Ghatampur.

IRRIGATION.

The irrigated area in 1912 amounted to 148,075 acres or 23·3 per cent. of the cultivation. In 1901-02 the irrigated area of the district was 230,958; as noted above, the cause of this decrease is the subsidence of the water level.

WELLS.

Earthen unprotected wells are dug at a cost of Rs. 15 or less and the wells do not last more than ten years and in some cases only one or two years. The average depth of water is aboat 50 ft. from the surface of the ground. In 1912, the area irrigated from wells was 79,842 or 53·92 per cent. of the total irrigated area. The number of masonry wells now available for irrigation is

returned at 16,955 but of these 12,002 were actually employed in 1912, almost the same number as 1902. The number is largest in Purwa Tahsil and smallest in Safipur. The non-masonry wells numbered 35,972, of these 29,601 were actually used.

TANKS.

The number of tanks available for irrigation is practically the same as in 1903. Recourse is had to them chiefly in the Mohan and Purwa tahsils. In all 68,233 acres were watered, or 46·08 per cent. of the total irrigated area.

FAMINES.

The monsoon of 1907 commenced at the end of July and did not last after August. All crops sown made an excellent start but owing to the early cessation of rain the rice crop was totally lost. Maize, Juar and Bajra also suffered very seriously. The months of October, November and December also brought no rain. The result was that there was considerable distress over the whole district. Scarcity was declared from 1st January 1908. Test works were opened on the following roads :—

(1). Bikrampur-Bihar, (2) Safipur-Mianganj. The highest number reached on such works was 943 and it did not become necessary to open any public works. Gratuitous relief commenced from 6th January 1908, the numbers then being 2,129. The numbers gradually rose to a maximum of 6,398 in the month of March. State poor houses were opened in Unao, Mohan, Purwa and Safipur. Five aided works were opened and were successful in relieving distress. Private charitable committees were formed at tahsils and large sums were distributed in charity, while nearly seven lakhs was advanced in taqavi under Act XII.

The final payments of gratuitous relief were made on 13th June 1908. The aided works continued in operation until the break of the rains in July 1908. The Unao poor house was closed in April 1908, the others were closed in March. The monsoon of 1908 was also sowewhat delayed, the first fall of rain being received on 1st July 1908. Excepting in the south of the district the fall was very much below the normal but as the showers were continuous and well distributed, they were sufficient for agricultural needs.

INTEREST.

At the census of 1911 there were enumerated 2,406 bankers and bankers' clerks. It is probable that the very big difference between these figures and of 1901 is due to the different method of enumeration as well as to the progress which the Co-operative Credit system has made in the district since November 1906, when the Unao Town Bank, Limited, was established. This bank prospered greatly under the careful supervision of Mr. F. S. P. Swann, I. C. S., Deputy Commissioner and the late Rai Kali Charan Sahib. There are now in the district five central banks, namely, (1.) Safipur, (2) Ajgain, (3) Purwa, (4) Rampur Khanjri, and (5) Rampur Garhwan, fourteen societies working on the old Patti system, seven Urban banks and 176 small village independent banks in the district, almost all of which are directly or indirectly financed by the Unao Town Bank, wholly or partially.

Its sources of Capital are share capital, deposits, (fixed, current and savings bank) Debentures and loans.

The bank also finances some societies outside the district, including two district banks. The Bank is managed by a Board of Directors consisting of twelve members, six of whom form the working committee. The Deputy Commissioner is the Ex-officio Chairman. The bank issued loans to the extent of Rs. 279,073-14-3 and Rs. 6,010-12-0 to societies and individual members respectively during the year 1912-13. Its share capital is Rs. 25,965 and its working capital exceeds five lakhs. It has succeeded in building up a Reserve Fund of Rs. 36,755-14-11 since it started, besides the sinking fund. The policy of converting the old Patti system societies into true village societies is being actively pursued. This work is being done very carefully, undesirable members being weeded out. New societies are also being formed after careful enquiry into their financial and social condition. The work of organisation, audit, inspection and general supervision is carried on by the Manager and Inspectors of the Unao Town Bank. Central Banks and big Patti societies have their own staff but they are also supervised by the Unao Town Bank officers.

The Bank has paid its share-holders a dividend of 10 per cent. since it came into existence, this being the maximum permissible under the Co-operative Credit Societies Act, 1910. It pays 5½ per

cent. on fixed deposits. Loans are issued by it to central societies at 8 per cent. and by them to village societies at 12 per cent. The latter grants loans to individuals at 15 per cent.

MANUFACTURES.

Besides those mentioned in the 1901 edition of the Gazetteer, under this head may be mentioned (1) A sugar factory, The Ganges Sugar Works, Limited, started in 1908—but which is now closed and is not believed to have been a success. (2) A Mill for pressing cotton and extracting oil at Mianganj started by the Taluqdar of Asiwan in the same year. (3) Several Flour Mills recently opened at Unao, Purwa, Bhagwantnagar, Nawabganj, Safipur, Mianganj and Maurawan.

FAIRS.

The largest fair is the Takia Mohabat Shah with which an Agricultural Exhibition is combined. It is held on 1st Thursday of the month of Pus and lasts for seven or eight days. This year the gathering was about two lakhs of people.

The next is the Kusehri fair and then comes the Pariar fair. The former has an attendance of about one lakh and the latter seldom gets above 70,000 to 80,000 owing to numerous other bathing fairs occurring on the same day all along the Ganges. Judging from this year the business done at the Takia fair is enormous. The opening of the Rai Bareli line with Takia as a station and the inauguration of the exhibition have undoubtedly increased its importance.

The important bathing fairs in Kartik are Buksar, Kulhuagara, Ganga Ghat opposite to Cawnpore, Pariar and Mela Alam Shah. The bathing fairs do not last more than three days but the Kusumbhi and Takia fairs last for nearly a week. Unimportant *URS* fairs are also held at Safipur and Moradabad once a year. The Kusumbhi fair takes place generally in April and lasts only for three days. Not much business is done in this fair, though cattle are now sold at it.

RAILWAYS.

On the Broad Gauge line new stations at Magarwara, Sonik and Kusambhi have been opened. The old bridge on the Ganges formerly used by the Oudh and Rohilkhand Railway is now reserved for Metre Gauge trains and road traffic, the Oudh and Rohilkhand

Railway have made their own bridge which was completed in the year 1910. On the Broad Gauge line five trains including the Great Indian Peninsula Mail from Jhansi run daily each way and three trains in each direction on the Metre Gauge.

A new line has been opened to Rai Bareli with stations at Achalganj, Bighapur, Takia and Purwa road. There is also a proposal to construct a line from Unao to Madhoganj in the Hardoi district. And a new station has been proposed between Achalganj and Bighapur stations on Rai Bareli line.

Local Roads.

In 1912, the total aggregate length of metalled roads was 99 miles 6 furlongs 47 feet; the cost of their maintenance being Rs. 220 per mile. This is not enough to keep them in good order and a larger amount will be spent when the increase in the District Board's Revenue permits it. Second class roads are 152 miles 7 furlongs in length and the yearly amount allotted for their repair including bridges and culverts gives an approximate average of Rs. 23 a mile. Third class roads are 204 miles 1 furlong in length and are maintained at an approximate average cost of Rs. 18 per mile. Fourth class roads are only six in number and have a total length of 41 miles, the average cost of maintenance being Rs. 5 per mile.

Four miles more of the Unao-Rai Bareli road (i. e. from the 16th to the 20th mile stone) have been metalled, and the road from Maurawan to Jabrailla (14 miles) was metalled in 1907-8.

Ferries.

The ferries are managed by the Cawnpore and Fatehpur District Boards. There is now no ferry in Auras-Mohan as the river has been bridged.

CHAPTER III.

Census of 1911.

The last census was that taken on 10th February 1911. The population was returned at 910,915 persons. The figure in 1901 census was 976,639. The decrease of 65,714 is due to the ravages of plague and to emigration to trading centres. The density of population fell to 509 persons to the square mile.

SEX.

Of the total population at the last census 478,585 were males and 432,330 females. In 1901 there were 96 females to every 100 males. The proportion now is 90.

RELIGION.

Classifying the whole population by religions there were at the last census 834,067 Hindus, 76,033 Musalmans, 669 Aryas, 123 Christians, 16 Sikhs, 7 Jains. The Sikhs are Police-men and Jains traders, but they have made no settlement in the district. Hindus thus number 92 per cent., Musalmans 8 per cent., Christians 01 and Aryas 07 and there is next to no change in their relative proportions.

CHRISTIANITY.

Christianity has made no progress in Unao since last enumeration. Of the 123 Christians enumerated in 1911, 29 were Europeans, 14 Anglo Indians and 76 Indians The number of Indian Christians in 1901 was 106. Of the present number 5 belong to the Church of England, 11 to the Baptist Church and the rest are Methodists. Connected with the last there are three ordained and ten unordained preachers. There is a School at Unao under the management of a resident pastor. The mission work is in charge of the Superintendent at Hardoi who visits Unao four times a year.

ARYAS.

The Araya Samaj has made much progress. At the last census the number had risen to 669. There are now lodges in Purwa, Pathakpur, Safipur, Unao and Nawabganj but adherents of the Samaj are to be found scattered in villages all over the district such as Kurari Kalan, Bighapur, Ugu, Pansa Khera, Kangaon, Churwan, Maurawan, Nagar Harha, Bangermau, Fatehpur, Chaurasi, Usian, Achalganj, Bahrajmau, Bisenmau, Rasulabad. There is no school now. Of the Aryas 315 are Brahmans, 44 Kayasthas and 95 Rajputs.

MUSALMANS : SHIAS AND SUNNIS.

In the 1901 census 7,205 Musalmans called themselves Shias, but in this census only 1,102 were so enumerated. The decrease is remarkable.

MUSALMAN CASTES.

The only alteration requiring notice here is that only 59 persons recorded themselves as converted Rajputs *i.e.*, Neo-Muslims at the last census 1911. People therefore recorded them as Neo-Muslims must have been differently classified this year.

BRAHMANS.

Brahmans numered 100,829 representatives or 12 per cent. of the total Hindu population, a decrease of 20,613 on the number in 1901.

RAJPUTS.

The Rajputs numbered 53,678 souls or 6 per cent. of the Hindu population. Males 29,430, females 24,248. The Bais number 10,876 persons and then come the Chauhans with 8,665 and the Dikhits with 7,013. The Rajputs have lost about the same in numbers as the Brahmans and nearly double as much proportionately.

VAISHYAS.

Banias numbered 12,210, Khattris 455 and Kayasths 8,575.

CHAMARS.

These numbered 105,867 persons or 13 per cent. of the total Hindu population, and show a slight increase.

AHIRS.

These numbered 99,562 persons or 12 per cent. The increase 6,819 is considerable.

PASIS.

These numbered 93,035 persons or 11 per cent. of the Hindus. This criminal tribe also shows a substantial increase.

LODHS.

Their number was 82,510 persons or 10 per cent. of the Hindu population, a sensible decrease though the proportion of the whole Hindu population is maintained.

KURMIS.

These numbered 17,529.

KACHHIS AND MURAOS.

Their number was 32,933. Both these castes show a decrease.

OTHER CASTES.

Gadaryas 25,164, Nais 20,850, Koris 19,693, Telis 19,556, Dhobis 16,274, Barhais 12,511, Faqirs 113, Kumhars 9,951

Kahars 9,186, Tambolis 6,174, Malis 5,708, Thatheras 906, Kadheras 13,984.

OCCUPATION.

At the last census the Urban population had fallen to 5·05 per cent. The agricultural population was returned at 72 per cent. The industrial population was returned at 14 per cent., while the commercial and professional population amounted together to 9 per cent.

SERVICE.

The number of persons employed in Government service was returned at 3,938 with dependants of both sexes. Military pensioners draw their pay from the Unao Treasury.

LANGUAGE.

At the last census 97 per cent. of the people spoke the Baiswari form of Eastern Hindi, while three per cent. spoke Urdu.

LANDED CASTES.

Mahant Har Charan Das is now dead and has been succeeded by his son Mahant Sant Rain Das.

TALUQDARS.

The description of Taluqdars and of their estates is very confusing owing to taluqas in this district being often given their wrong names. The estate held by the Raja of Maurawan is the Singrampur taluqa. The estate held by the Taluqdar of Pahu is the Gularha taluqa and it is now owned by Thakur Drig Pal Singh. The estate held by the Taluqdar of Simri is the Patnadasi taluqa. The Gaura taluqa is owned by Thakur Chanderbhal Singh and Thakurain Chandrapal Kuar.

The estate held by the Taluqdar of Bharawan is the Marhapur taluqa.

The property held by the Taluqdar of Kaulimau is not a taluqa.

The estate held by the Taluqdar of Katiari is the Fatehpur taluqa and that by the Raja of Partabgarh is the Chamiani taluqa. The Raja of Parenda is now Raja Bishnath Bux Singh, the son of Raja Sheo Dat Singh.

Thakur Balbhadhar Singh is very far from owning the whole of the taluqa of Kantha. His share is a very small one and the owners are numerous relatives of his. The Taluqdar of Galgalha

Thakur Chandrapal Singh owns two taluqas, Galgalha and Pipar Khera.

As to the Khattris of Maurawan the facts given are very obscure and incorrect in many particulars. It is unnecessary to go further back than Lal Man, who had three sons Chandan Lal, Manna Lal and Ganga Prasad. Manna Lal separated and went to Cawnpore and has no further concern with the family. Chandan Lal had five sons and Ganga Prasad two. After Chandan Lal's death, Lala Chotey Lal his eldest son having died in his father's life time, Raja Gauri Shanker his second son suceeded, and was recognized by Government as the head of the family during the Mutiny. There were four Sanads given—one for the taluqa of Maurawan in Unao, and one for taluqa of Thalendi in Rai Bareli and one for the taluqa of Jabrauli in Lucknow, all to Raja Gauri Shanker, and one for the taluqa of Harha Banther in Unao to Babu Sheo Prasad, the eldest son of Lala Ganga Prasad. After Raja Gauri Shanker's death Ràja Bihari Lal, the 3rd son of Chandan Lal, took his place and on his death Raja Kanhaiya Lal the fourth son succeeded. During Raja Kanhaiya Lal's life-time disputes arose, and he got his estates taken under the Court of Wards. It was while they were under the Court of Wards that the first partition took place, under which the four taluqas were first combined together and then partitioned. Babu Sheo Prasad obtained half the combined estates, including practically the whole of the old taluqa of Harha Banthar, the other half was first divided into five shares corresponding to Chandan Lal's five sons. Next the share which fell to Lala Chhote Lal's heirs was divided into four portions corresponding to his four sons. Thus nine new taluqas were formed in place of four, but no definite names were given to them, this partly accounts for the difficulty of tracing the property.

Chhoti Lal's four sons were Balmukand, Balgovind, Sangam Lal and Beni Prasad. Balmukand's branch is now represented by Lala Gaya Prasad, his grandson. Balgovind's by Lala Kashi Prasad his son, Sangam Lal's by Lala Ambika Prasad his grandson and Beni Prasad's by Lala Jai Dayal, his son. Raja Gauri Shankar, the 2nd son of Chandan Lal had three sons, Har Prasad, Ram Charan and Bisheshar Prasad. The first died without issue in 1889,

Ram Charan is represented by Lala Shanker Sahai, his grandson, and Bisheshar Prasad by Lala Ganesh Prasad, his son. These two descendants have not only the share which fell to Raja Gauri Shanker but a portion of the share which fell to Lala Janki Prasad, the fifth son of Chandan Lal, and the whole of the share which fell to Babu Sheo Prasad, the descendants in both cases dying out. Raja Bishan Lal the third son is now represented by Rani Jai Dei, the widow of Lala Kedar Nath, though as she has formally adopted a son, Prag Narain, the latter is the real proprietor.

Raja Kanhaiya Lal the fourth son was succeeded by his son Sheo Darshan and is now represented by the present Raja Shambhu Dayal, who received this title as a personal distinction in 1910 and his brother Lala Brij Kishore, who have now petitioned Government for the partition of their taluqa. Lala Janki Prasad the fifth son, was succeeded by his son Ram Narain and then by Ram Narain's widow who died heirless, the property then passed to the various descendants of Chandan Lal.

It is now difficult and also unnecessary here to go into further details. There has been a lot of private partitioning among the family and the names of the estates given in the Gazetteer are often untraceable in the Revenue Records.

The Taluqdar of Kardaha is now Pandit Chanderbhal Bajpai. The property held by the Taluqdar of Jagdispur in this district is not a taluqa. The Taluqdar of Bethar is now Pandit Sham Sunder Nath Kaul. The village of Shakurabad is held under a separate Sanad by the Taluqdarin of Tirbediganj. Mahant Sant Rain Das, son of Mahant Har Charan Das is now the owner of Maswasi. The properties owned by Lala Durga Prasad of Sarwan and Rai Sri Ram Bahadur as well as by Saiyid Iltifat Rasul are not taluqas. Chaudhari Mohammad Mah is not the sole owner of the taluqa of Unao. Saiyid Taleb Ali his brother too is dead. Chaudhari Mohamad Mah owns only ten annas of the estate and the other six annas is owned by Musammat Bakhtawar Begam. The Estate though held under a primogeniture Sanad has been subdivided from the very first. Both portions are very heavily in debt. The Mianganj taluqa is no longer under the Court of Wards. The old taluqas of Malona, Akberpur and Jajamoau have disappeared as taluqas.

UNDER PROPRIETORS.

The Settlement Officer at last revision neglected to determine the rents of all under-proprietors in accordance with section 29, Land Revenue Act, only determining those in which applications were made and these were very few. The number of under-proprietors is being affected by the considerable number of resumption suits filed in 1911 and 1912 which result in an appreciable number of cases in the rent free holders being declared under-proprietors.

CHAPTER IV.

MAGISTERIAL STAFF.

The Deputy Commissioner is now ordinarily assisted by four full powered officers (one of whom is usually in the cold weather a covenanted European officer) and one Treasury officer, this being the sanctioned staff.

There are seven Honorary Magistrates :—Rai Bahadur Chaudhari Mahendra Singh, Raja Shambhu Dayal and Chaudhari Muhammad Mah, with 2nd Class powers; Pandit Ram Narayan, Raja Bishnath Bakhsh Singh, Khan Bahadur Chaudhari Wasi-uz-Zaman and Thakur Shambhu Singh, with 3rd class powers; also one Honorary Assistant Collector with 1st class powers, Babu Girja Dayal.

CIVIL COURTS.

For the purposes of civil, criminal and appellate jurisdiction the district forms part of the Lucknow judgeship. Sessions are held at intervals at Unao by the Additional Sessions Judge of Lucknow. There are now four Munsifs, two at Unao, one for North Unao and one for South Unao, and one each at Purwa and Safipur. North Unao comprises of Parganas Pariar, Unao, Asiwan, Rasulabad, (Mohan Auras) Gorinda Parsandan, Hasanganj; South Unao comprises Harha, Sikandarpur, Ghatampur and Magrair; Purwa Munsifi comprises Bhagwantnagar, Maurawan, Purwa, Daundia Khera, Behar, Patan, Panhan, and Asoha; Safipur munsifi comprises Safipur, Fatehpur Chaurasi, and Bangarmau. There are now two Honorary Munsifs in the district—Rai Bahadur Chaudhari Mahendra Singh for pargana Bangarmau and Lala Brij Kishor for parganas Maurawan and Asoha in

tahsil Purwa concurrent with the jurisdiction of the Munsif of Purwa. The latter has been empowered to receive plaints direct.

Alluvial Mahals.

There are now 133 alluvial mahals, 120 temporarily settled and 13 permanently settled.

Result of the Assessment.

The revenue is now collected without difficulty. In 1910-11, the balance was Rs. 3,473 and in 1911-12, Rs. 2,344. This was nominal. The average number of sales of land by orders of court is 43.

Cesses.

These have now been reduced to 10 per cent. The Patwari rate has been abolished. In 1911-12, the collections on account of local rate amounted to Rs. 82,469 and Rural Police rate amounted to Rs. 82,471. The Rural Police rate has been provincialized with effect from 1st April 1914.

Police Force.

In 1912, the regular police force of the district consisted of 28 sub-inspectors, 15 head constables and 161 constables. In addition to these there are 118 officers and men of the armed police. The municipal police are now a part of the regular police force. The police of the towns administered under Act XX of 1856 amounts to 54 men. There are 58 men in the road police and 2,040 village chaukidars. The proportion of the regular civil police is one to every 8·7 square mile of area and one to every 4,465 inhabitants.

There are two circle and one reserve inspectors under the Superintendent.

Chaukidars.

All the chaukidars are now paid monthly by Government, receiving Rs. 3 a month or Rs. 2-13-0 after deduction of uniform charges. Act XX—Town chaukidars get Rs. 3-4-6 after deduction of Re. 0-3-6 uniform charges.

Excise.

The distillery at Unao was abolished in 1909 and the district came under the contract system, the liquor being supplied by Messrs. Dyer & Co. of Lucknow who manufacture it after the English method. Liquor is issued from bonded warehouses

at Unao, Purwa and Safipur and sold at a fixed strength of 25° and 50° U. P. with a margin of two degrees either way.

The number of Excise Inspectors has been raised to five. Two of them are in charge of preventive and detective work only while three have charge of the bonded ware-houses, and also have to do preventive work on non-issue days. Issues are made once or twice in a week as considered desirable by the Assistant Commissioner of Excise. The still-head duty is now Rs. 3-8 per L. P. gallon but it is now proposed to raise it to 4 per L. P. gallon as consumption of liquor is increasing regularly in the district. The price of liquor charged by Messrs. Dyer & Co. is annas 14 per L. P. gallon. There are at present 137 liquor shops, paying a licence fee in 1912-13 of Rs. 37,731. The total consumption is now 64,699 gallons. Consumption of liquor has increased partly because it is considered to be an antidote to plague and the scruples of low caste Musulmans against its use are not so strong as they were.

Opium and Drugs.

The number of opium shops in 1913-14 was 14. Opium is also sold by the Tahvildars at each tahsil. It is supplied at Rs. 20 and sold retail at Rs. 30 to Rs. 40 a seer. Its average annual consumption for the last three years was 17 maunds 27 seers, or more than double what it was 10 years ago. This may however be connected with the restriction in poppy cultivation which is now allowed only in fifteen parganas out of the whole district the forbidden parganas being the six southern parganas of Bhagwantnagar, Daundia Khera, Panhan, Patan, Magrair and Ghatampur.

In 1913-14, the drugs and bhang contract for the Unao and Cawnpore districts were sold together at Cawnpore for Rs. 7,00,000 for three yrars. The numbers of retail drug shops in the district is 88. The average consumption of charas in district for the last three years is 59 maunds 16 seers. Charas is sold by retail vendors at the rate of Rs. 70 to Rs. 90 a seer and bhang Rs. 2 to Rs. 2-8 a seer.

Tari.

There are altogether 113 tari shops in the district. The number of shops for each tahsil is, Unao 13, Purwa 7, Safipur 53, Hasanganj 40. The licence fees amounted to Rs. 9,850 in 1913-14.

POST OFFICES.

There are 14 sub-offices and 42 branch offices. The latter are mostly in charge of extra departmental agents who carry on the postal work in addition to their own profession. The only departmental branch office is at Naraindas Khera the remaining 41 are extra departmental. There is no district dāk now. Achalganj, Agaijn, Bara, Bhagwantnagar, Bighapur, Behar, Hasanganj, Maurawan, Padri Kalan, Purwa, Gangaghat, Bethar, Sikanderpur, Asoha, Bhauli, Chamrauli, Jaitipur, Kantha, Nawabganj, Dhanikhera, Narayan Das Khera, Sagwar, Bisenmau, Ghatampur, Indemau, Terha, Patan, Sumerpur, Mohan, Neotani, Hilauli, Mawai, Sarwan, Chamyani, Magrair, Purwa, Taura offices are served by train in the case of others the post is carried by runners. With the exception of Badarka, Banthar and Thana the mails leave the Unao head office for all parts (the post offices served by railway not included) at 5-10 p.m. The mails are brought in at 10 a.m. with the exception of the above three offices from which the post comes at 4-30 p.m.

INCOME-TAX.

The average receipts for the years from 1904 to 1912 amounted to 12,782. In 1911-12 there were 353 persons assessed. But of these only 62 were estimated as enjoying incomes of over Rs. 2,000 per annum. The average tax paid by the latter was Rs. 5,462, fourteen belonged to the Mohan Tahsil, 16 to Purwa, 17 to Unao and 15 to Safipur. In the case of those whose income is estimated at under Rs. 2,000 the average amount of tax paid was Rs. 7,552.

The drop of nearly Rs. 10,000 since 1902-3 is of course due to the exemption of incomes not exceeding Rs. 1,000 from the tax and an examination of the figures since that date indicates very little improvement in the prosperity of the district in recent years so far as non-agricultural income is concerned.

REGISTRATION.

The average income from registration fees is Rs. 18,516 or nearly three times the average estimated income from 1896 to1901.

STAMPS.

The court-fee stamp income has increased from Rs. 1,12,842 in 1901-02 to Rs. 1,46,051 in 1912-13. The number of applications for

ejectment in 1911-12 was 2,512 or about 1,500 less than in 1902.

LOCAL SELF-GOVERNMENT.

The first Vice Chairman, Pt. Beni Madho Dube, became in turn the first Chairman of the Municipal Board in 1913. The Board has had a paid Secretary since 1911. The income is chiefly derived from the tax, (1) on houses, buildings and land levied on their annual value and (2) on professions and trades.

DISPENSARIES.

One additional dispensary has been opened at Rajapur by the Court of Wards in the estate of the Raja of Sisendi. It is supported entirely by this estate. The average daily attendance in 1911 for all the dispensaries was 326·17.

EDUCATION.

The proportion of literate persons at the last census was 3·3 per cent. as against the provincial average of 3·4.

SCHOOLS.

In 1912, in addition to the Government schools there were six middle schools and 212 others with an average attendance of 7,175. These were supported at a cost of Rs. 34,574. The Maurawan and Bihar middle vernacular schools have been abolished. The Board's village schools now number 121 in all, of which 59 are of the upper primary type and 62 of the lower primary type. Aided schools are 83 in number. There are eight girls schools of which two are Government model schools at Unao. The unaided indigenous schools numbered 279 in 1912 with a total attendance of 1,150 pupils. In 95 Arabic or Persian, in six Sanskrit, in 178 the vernacular is taught. The present expenditure on education is Rs. 46,959 from District Board Funds.

LITERACY.

The number of literate persons is 3·3 per cent. only a slight increase. Of the males 6·1 per cent. are literate and of females ·29 per cent. At the last census 6·5 per cent. of the Mohammadan males and ·79 per cent. of the females could read and write while for the Hindus the figures were 5·9 and ·23 respectively. One thousand one hundred and thirteen persons or 3·6 per cent. of the total literate population were literate in English.

CATTLE POUNDS.

There are 21 pounds in the district apart from that at Unao, which is the property of the municipality. In the Safipur tahsil, there are six pounds—in Mohan, there are three and one in Asiwan-Rasulabad. In Unao three and in Purwa tahsil seven.
